

C.L. Daily Inter Lake Evergreen Apiares
and my files

KALISPELL, MONTANA 59901

Sunday Jan 23, 2006

RECEIVED

CLOVER HONEY, BEESWAX
AND POLLINATION

EPA manager Mike Cirian:

I'll make this brief since you must be getting (what I hope) are hundreds of letters on subject in the Daily Inter Lake of the above date.

I have lived in Kalispell-Evergreen area since 1948. I was 4 years old then. My father and I have managed this honey bee business up to the present time.

Columbia Falls and its many workers at CFAA have probably purchased literally tons of honey from us over the years. You might then understand why I have a warm spot in my heart for that area of the Flathead To see that it might become an EPA Superfund site breaks my heart. Let the local folks deal with it - they and the land's owner can do it efficiently and more efficiently.
